# Recommend an Audiobook or eBook for Purchase

If there is an audiobook or eBook you'd like to check out (or one that you think others would enjoy), you can recommend the title to us by following these simple steps:

Step 1:
Visit Overdrive, our audiobook and eBook check out system.

Step 2:
Sign in by clicking the link in the upper right corner. You will need your library card number and your password/PIN.
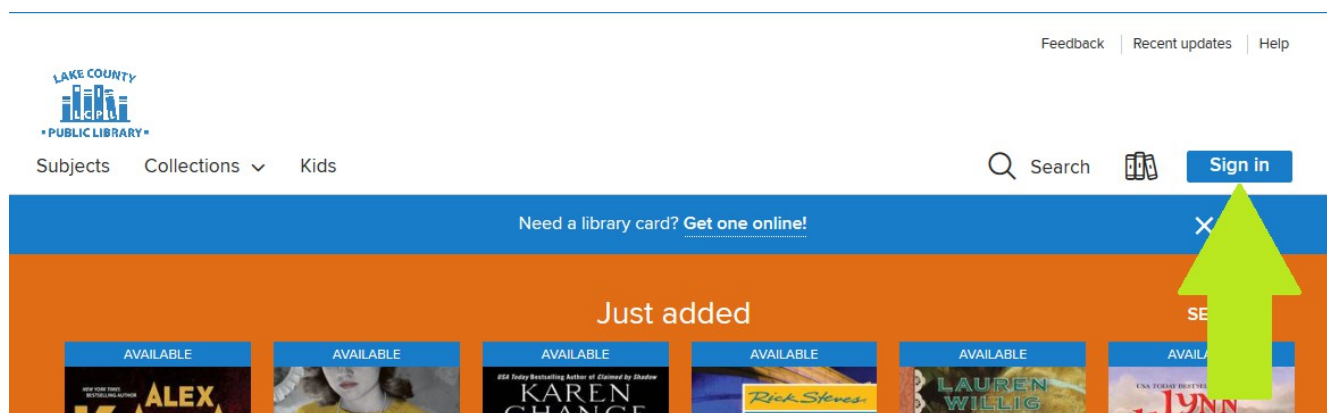

Step 3:
Once you are signed in, you will be automatically taken back to the home screen, where you can perform a search. You can enter both title and author in the search box.

Step 4:
Overdrive will automatically search for titles LCPL already owns. If it can't find anything, it'll return this result:

We couldn't find any matches for **surprise me**.

Here are some suggestions that may help:

- You can add titles that aren't in the collection to your results and recommend them to the library for purchase.
- If you entered multiple words, try using fewer words.
- If you applied filters, try removing one or more filters.
- If you used advanced search, try removing one or more criteria.
- Check your spelling.
- Click or tap your browser's back button to return to the previous page.

Just click "add titles that aren't in the collection" to proceed.

Sometimes, however, Overdrive will find similarly-named books – but not the one you're looking for. If you get results but they aren't what you wanted, click "Recommend to library" in the left menu.

Step 5:
Your results will update with more choices. If you see the one you're looking for, click "Recommend."

If the title you were looking for still isn't there, then the book may not be available at all as an eBook or audiobook. Some publishers to not allow libraries to loan digital copies of their books.

Step 7:
Choose whether you want to be placed on the wait list or just emailed if we purchase the title. Then click Recommend.
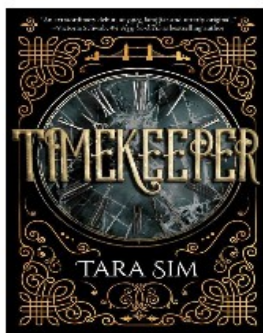

Congrats! You've now successfully made a purchase suggestion using Overdrive! Happy reading!
